

PRESS RELEASE

CIRCLE GROUP - INFO.ERA: Milos® Terminal Operating System fully operational for Trieste Intermodal Maritime Terminal (“TIMT”) in the port of Trieste.

Besides its native integration with Port Community System of Port of Trieste Sinfomar®, Milos® Terminal Operating System for TIMT is also interoperable with evolute platforms used by Samer & Co. Shipping and Ulusoy.

Genoa, 2021, March 2nd

CIRCLE Group, specialized in the analysis and development of innovation and digitalization solutions for port and intermodal logistics headed by **Circle S.p.A.**, Company listed on the AIM Italia market organized and managed by Borsa Italiana, announced the full release of Milos® Terminal Operating System (“TOS”) for **Trieste Intermodal Maritime Terminal** (“TIMT”) in the port of Trieste.

Besides its native integration with Port Community System of Port of Trieste Sinfomar® (developed by **Info.era**, software house based in Trieste part of CIRCLE Group), Milos® Terminal Operating System for TIMT is also interoperable with evolute platforms used by **Samer & Co. Shipping** and Turkish operator **Ulusoy**, both in the capacity of shareholders of TIMT.

Thanks to these synergies, the new integrated TOS will provide a single real-time view of all operations and data, allowing to share information among all players of the supply chain, obtaining event recording for more accurate reporting, visibility about yard availability situation, trailer operative management, mobile reach stacker interoperability and thus significant optimization for shipping line planning and management.

Milos® will exploit handheld and vehicle-mounted mobile devices that allow to follow operations both in yard and on the ship. The mobile app features a modern and intuitive user interface and give users great flexibility.

“Through our suite it will be possible to take smarter decisions in a faster way, resulting in improved productivity and greater operational efficiency” stated Luca Abatello, CEO at Circle Group.

*CIRCLE Group is specialized in the analysis and development of **innovation and digitalization solutions for the port and intermodal logistics sectors** headed by **Circle S.p.A.**, Innovative SME listed on the **AIM Italia market** of Borsa Italiana since 2018, October 26th (alphanumeric code: CIRC; ISIN code for ordinary shares: IT. 0005344996).*

*Besides Circle, belong to the Group software houses **Info.era** and **Progetto Adele**, purchased respectively at the end of 2017 and in July 2019.*

*Synergies between Circle, Info.era and Progetto Adele allowed the Group to expand the portfolio of solutions offered in the fields of IoT, Optimisation, Digital Twin, Big Data and Process Automation, and to strengthen its software products: **Milos®** - the suite for all players of intermodal logistics such as inland terminals, port terminals, ports, MTOs and shipping agencies -, Port Community System **Sinfomar**, **Master SPED®** and **Master TRADE®** solutions - respectively dedicated to shipping and logistics, and to commerce and industry.*

*Lastly, with **Circle Connecting EU**, Circle supports Public Entities and Companies by identifying their positioning at European level (**EU Branding**) and funding opportunities (**Project Anticipation**). The joint venture agreement, announced on November 30th, 2020 with **Magellan**, Portuguese entity delivering advocacy services towards the European Institutions, will enable Circle to expand its international geography in the Iberian Peninsula, strengthen its presence in Brussels and take maximum advantages from opportunities related to **Next Generation EU Recovery Fund**.*
