Federative Services for Freight Forwarders

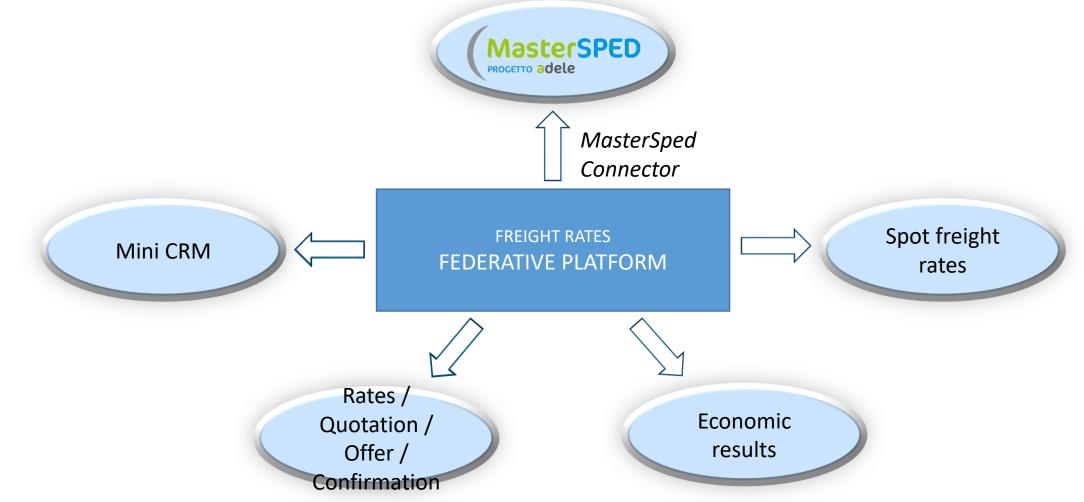

- Rail & Intermodal Connector
- Best Trucker Selection
- Truck last mile & Intermodal triangulation
- Booking regarding Intermodal/Rail transport
- Semantic digital process automation
- «Notarization» «customs/security document for SUDOCO»

Rates Management / Quotation tool: interoperability & connections

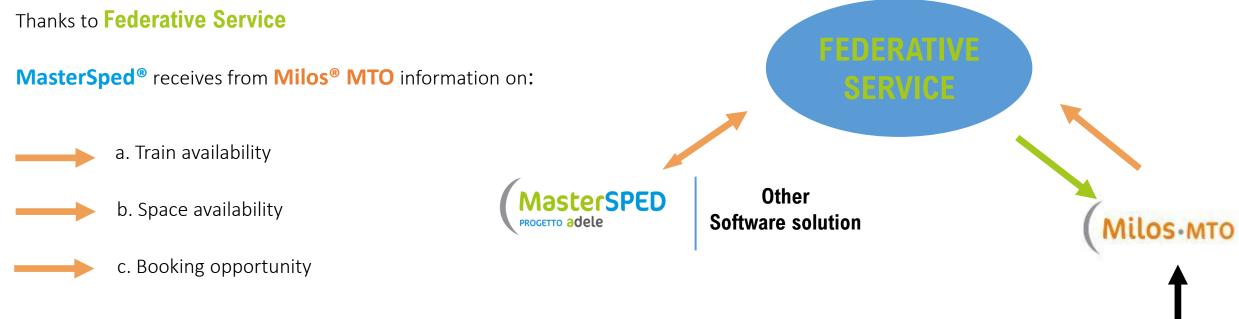

MasterSPED Rates Management / Quotation tool: main functionlities

Rail & Intermodal Connector

The Federative Service directly get in contact MasterSped[®] with Multimodal Transport Operator

Rail last mile

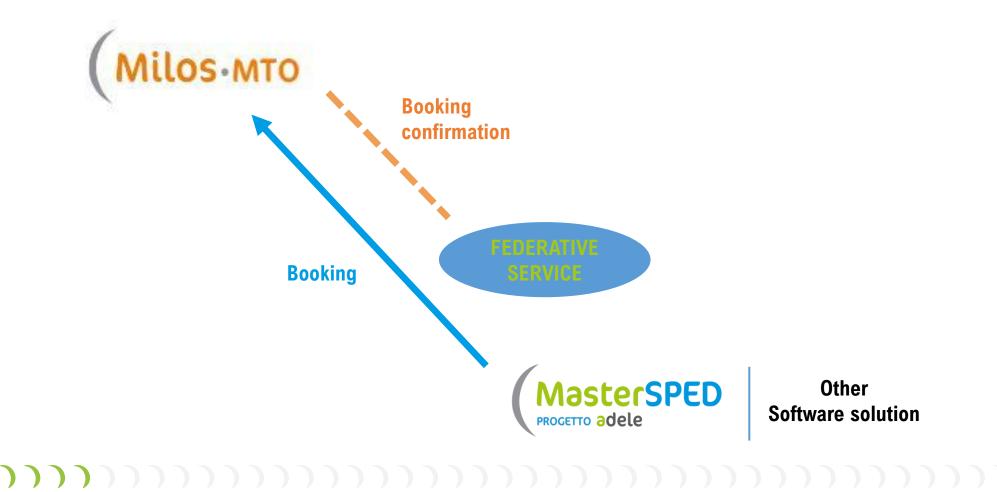

d. for Pricing information

Milos[®] MTO can dialogue with **Rail last mile** pratforms

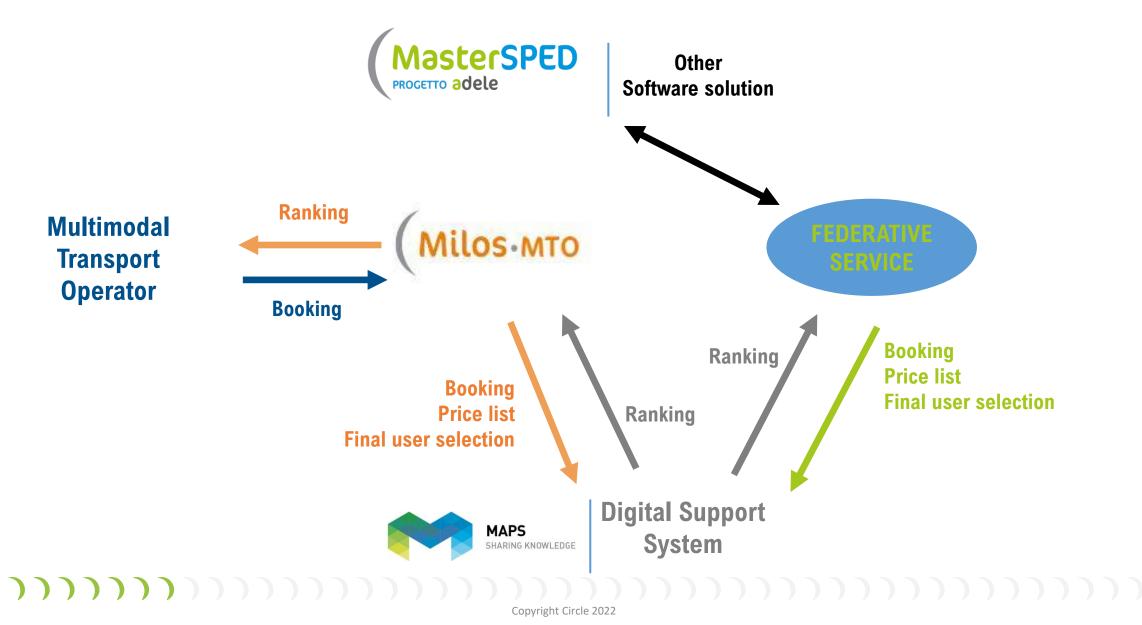

Booking regarding Intermodal/Rail transport

In case of an existing <u>Framework Agreement</u> with a specific Multimodal Trasport Operator, the Federative Service allows MasterSped[®] (or other software solution) to start booking procedures and receive confirmations.

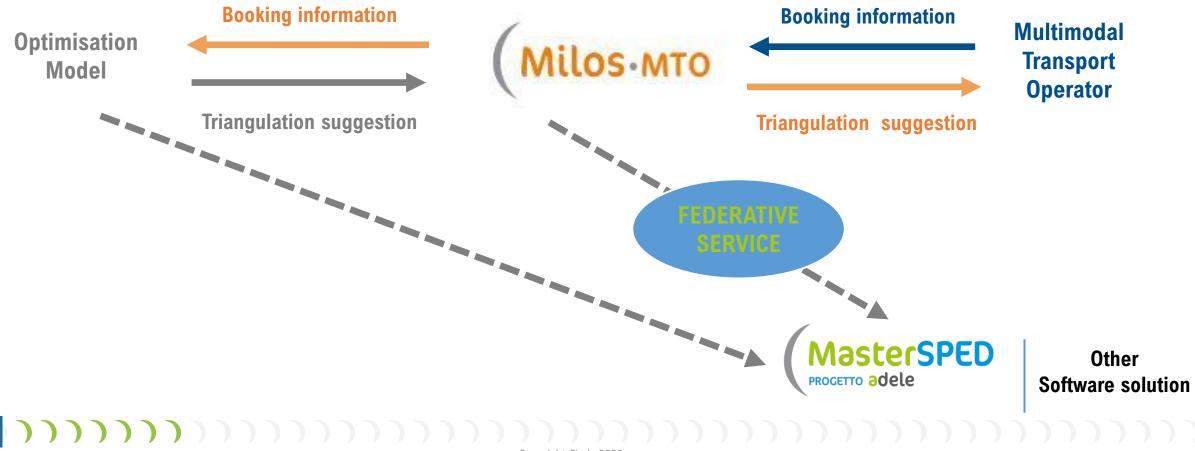

Best Trucker Selection

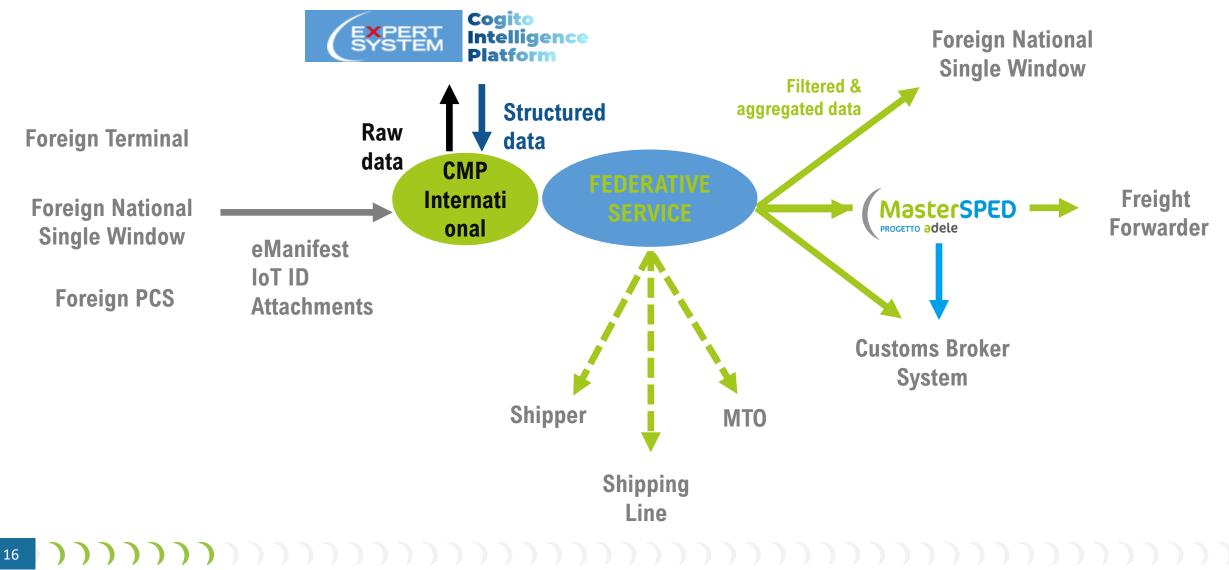

Truck last mile & Intermodal triangulation

Thanks to an Optimisation Model, Milos[®] MTO communicates to MasterSped[®] (or other software solution) throught Federative Service the best truck optimization solution according to an intermodal need.

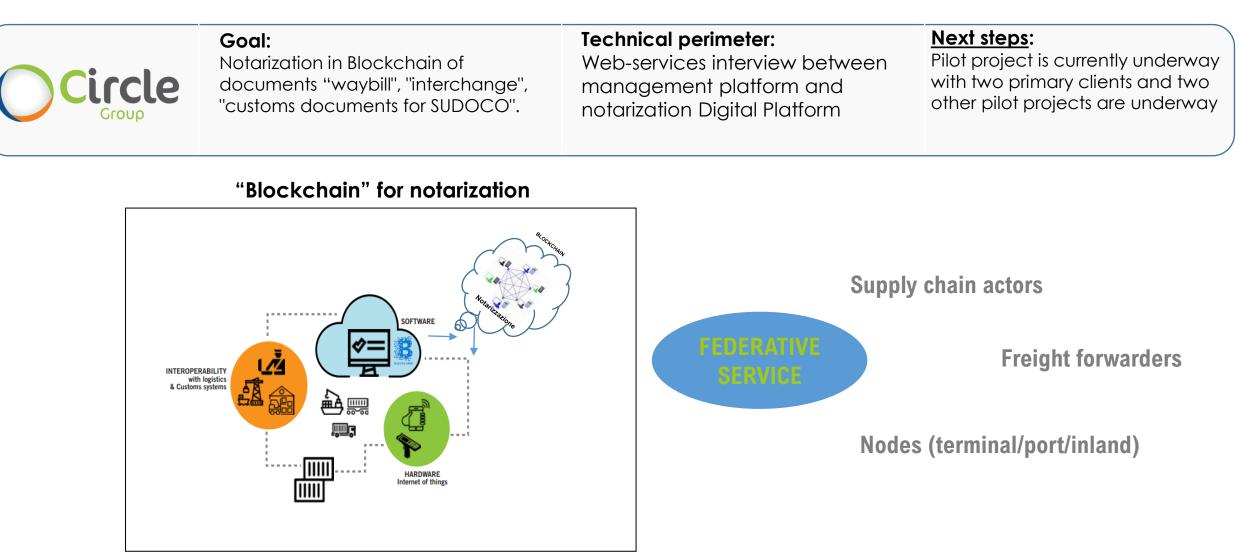

Semantic digital process automation

«Notarization» «customs/security document for SUDOCO»

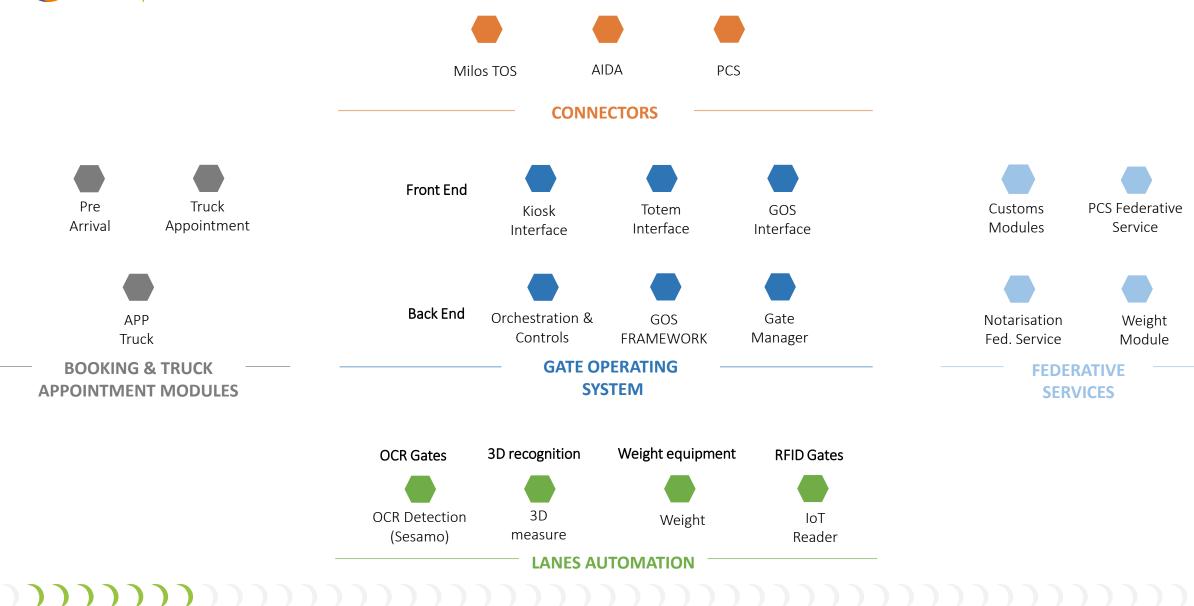

Environmental sustainability reports

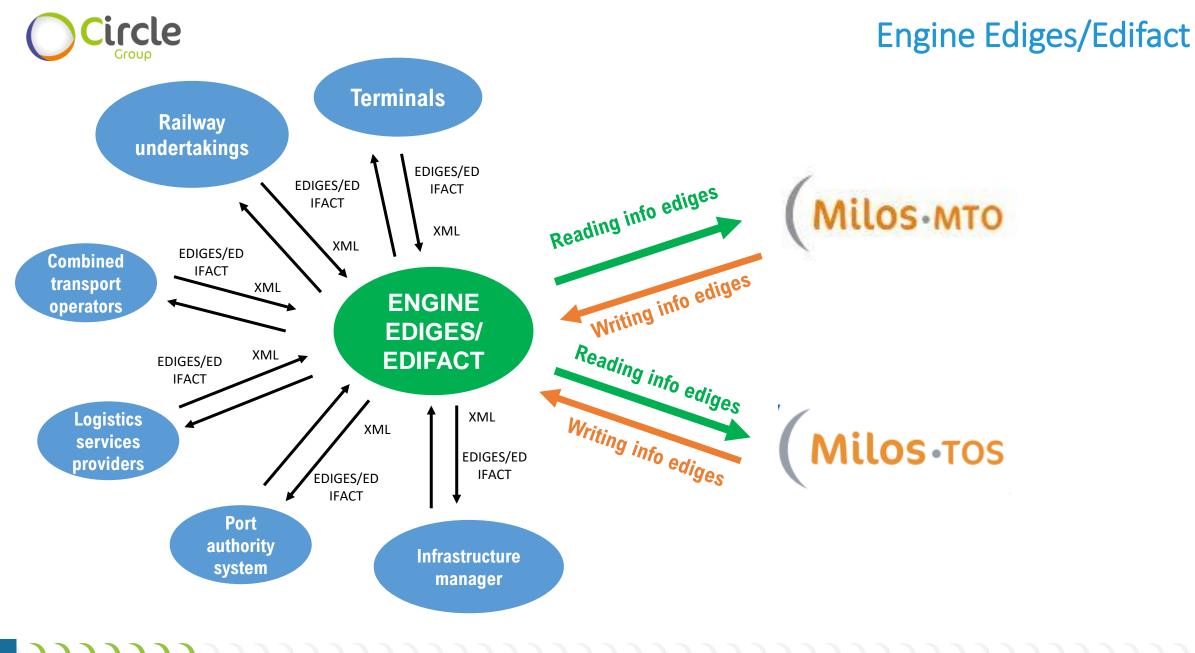

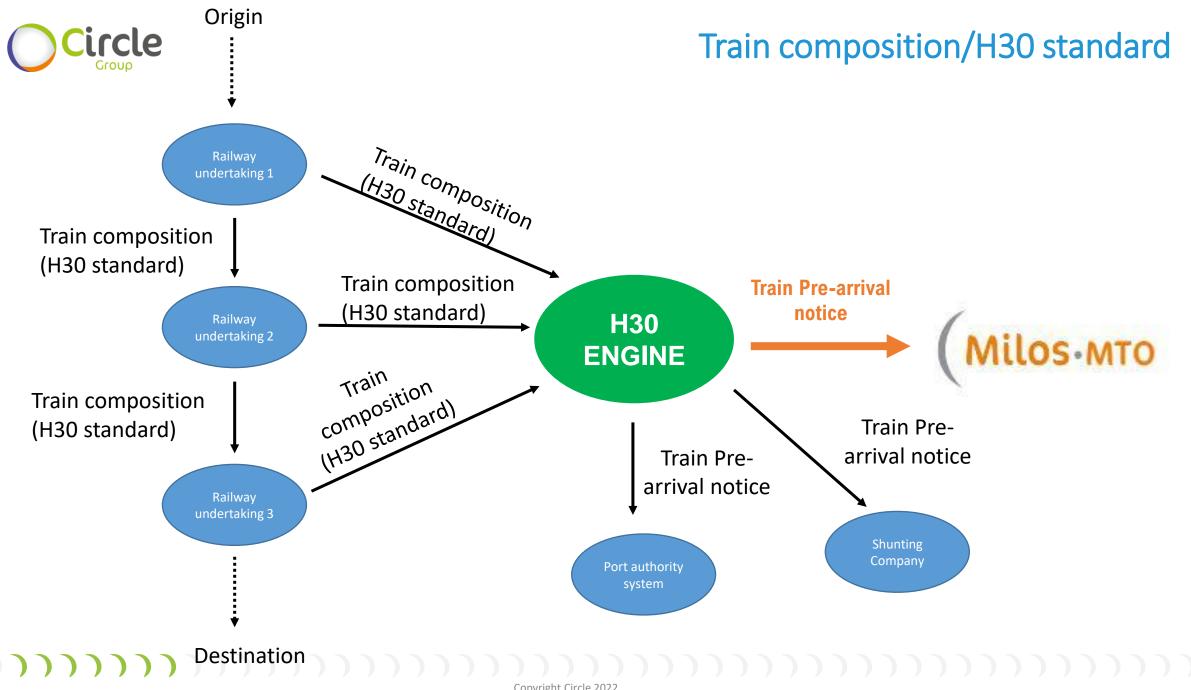

«Truck smart gate / marittimo»
