

PRESS RELEASE

Circle Group: digitalisation and innovation in transport and logistics stops in Munich, accompanied by the flavours of Liguria

Milan, May 28 , 2025

CIRCLE S.p.A. (“**CIRCLE**” o la “**Company**”) - Innovative SME **listed on the Euronext Growth Milan market** at the head of the Group of the same name specializing in process analysis and the development of solutions for the digitalization of the port and intermodal logistics sector and in international consultancy on the Green Deal and energy transition issues – is pleased to announce the Group's participation, **with Milano Malpensa Cargo stand 401 in Hall B3 at Transport Logistic 2025**, the leading international trade fair for logistics, mobility, IT and supply chain management, to be held in **Munich** from **2 to 5 June**, together with co-exhibitors **OPTIMEasy** and **Aitek**.

The presence at the event is an important showcase for demonstrating highly interoperable digital solutions geared towards optimising logistics processes, in line with the guiding principles of Circle Group's “**Connect 4 Agile Growth**” business plan.

There will be several appointments at **Circle Group's stand**, including, on **June 3 at 4.30 p.m.**, a special appointment with our **strategic partner Binary System**, with whom the Group has been working for years to develop digital solutions relating to the automation and optimisation of railway shunting, seamless integration between TOS, VMS, TMS and eFTI connectors, predictive management of the first/last railway mile, and scalable ecosystems for logistics nodes.

Another important appointment is on **June 4 at 11.30 a.m.** with **eXyond** and **Telepass** to present the latest innovations in the digitalisation of logistics and customs flows, with a special focus on interoperability between players and logistics nodes, traceability of goods and end-to-end integration of the supply chain, advanced and integrated tolling systems.

Among the innovations that will be presented: **document dematerialisation (e-CMR & e-DDT)**, which enables digital management of transport documents, ensuring regulatory compliance and reducing inefficiencies. The **digital signature** of the driver and consignee ensures traceability and immutability thanks to Blockchain. **Centralised access** via app enables real-time information flow. **Interoperability** with multimodal nodes improves terminal access management, reducing waiting times. The service promotes a paperless model and contributes to environmental sustainability.

Together with Circle Group and eXyond, Telepass will illustrate how the **integration between mobility and urban logistics** can contribute to a smoother, safer and more sustainable management of **logistic corridors**, even in the most complex contexts.

In order to make the visitors' experience even more authentic, Circle Group has also chosen to enhance the excellence of the Ligurian territory: during the event, selected tastings will be offered by **Grondona**, a historic Genoese artisan confectionery company, and by **Il Mugugno Genovese**, which for the occasion will propose local specialties supplied by **Rossi 1947**, a high-quality supplier specialising in typical Ligurian products.

*'Joint participation in Transport Logistic represents a strong signal of the synergy between companies that believe in **digital integration** as a lever for efficiency and sustainability,' says **Luca Abatello, CEO of Circle Group**. 'The collaboration with eXyond and Telepass reflects our shared vision of a modern, interoperable and data-driven logistics ecosystem, capable of responding agilely to market challenges.'*

The company will also be present at Transport Logistic 2025 through the company **CargoStart**, specialised in digital solutions for air cargo, within the **SEA stand**, located in **Milan Malpensa Cargo Hall A2, Booth 606**. This will be an opportunity to present the latest technological innovations dedicated to the digitalisation of air cargo transport.

Rossi 1947 - Il Mugugno Genovese

The collaboration between Rossi 1947, a historic Ligurian flavour company, and Il Mugugno Genovese, the Superba's largest digital community, stems from a common goal: to preserve and promote authentic Genoese identity. Rossi 1947 is known for its artisanal Pesto Genovese, the result of a family recipe, exported to over 26 countries and recognised as one of the best in Italy.

Mugugno Genovese speaks to hundreds of thousands of users every day, recounting Genoa with irony, expertise and a love for its roots. This synergy goes beyond marketing: it is a cultural pact between flavours and popular narrative. It certifies authenticity with the consensus of its community, while Rossi 1947 embodies it in the selection of raw materials and traditional production methods. In addition to pesto, focaccia genovese is a

flagship product of the company, distributed in Italy and Europe. Together, the two companies strengthen a cultural and economic ecosystem that safeguards the gastronomic memory of Liguria. They choose quality, consistency and the link with the territory, resisting global homologation. It is a model that combines taste and identity, and which can inspire other realities. Because Liguria is not just a place, but a heritage to be told, experienced and savoured.

Grondona

Grondona will participate in Transport Logistic 2025 in Munich, from 2 to 5 June, within the exhibition space of Circle Group, a technology partner for logistics digitisation. The presence at the event marks an important step in the Group's internationalisation and innovation path. According to Andrea Grondona, export manager, the collaboration with Circle aims to make export processes more efficient, transparent and sustainable. The common goal is to combine tradition and technology to meet the global challenges of the supply chain. Founded in 1820 in Genoa, Grondona is a benchmark in Italian confectionery, active in more than 40 countries. The Group combines craftsmanship and modernity in its production and logistics processes. Its brands also include Bonifanti, known for panettone and large leavened goods of excellence. Participation in the fair reflects its commitment to increasingly integrated and innovative logistics. Grondona thus aims to strengthen the competitiveness of its brands on a global level.

*Founded in Genoa in 2012, **Circle S.p.A.** is the Innovative SME at the head of the [CIRCLE Group](#), the Group specialising in the analysis and development of products for the **innovation and digitalisation of the port and intermodal logistics sectors and in international consultancy on Green Deal and energy transition issues.***

*The Group includes the software houses **Info.era**, **NEXT Freight**, **Cargo Start**, **eXyond**, **Circle Garage**, the consulting companies **Magellan Circle** and **Magellan Circle Italy**, **NEXT Customs**, as well as the subsidiaries **ACCUDIRE**.*

*The main products are the different **Milos®** suites for various targets, the **Extended Port Community System**, the **MasterSPED®** and **Milos® Global Supply Chain Visibility** solutions for shipping, logistics, trade and industry, respectively, as well as **StarTracking®**, an airport-to-airport tracking solution. Completing the Supply Chain offering are '**Federative Services**', offered in cloud mode, which can make customers' migration to a digital business model more efficient.*

*In the Circle Group's sphere of innovation activities, **Milos® Intelligence** offers a series of advanced solutions that exploit AI technologies for optimisation, simulation and the Digital Twin to support the transformation of decision-making processes by promoting the digitalisation of systems.*

*Through **Magellan Circle** and **Magellan Circle Italy**, the Group operates in the field of advocacy at European*

*institutions, working alongside public bodies and companies, identifying their positioning at European level (**Strategic Communication and Advocacy**) and funding opportunities (**Eu Funding Accelerator**), with a vertical focus on Green Deal and energy transition issues.*

*With the acquisition of **Cargo Start**, a company specialised in the development and sale of innovative technological products and services for air cargo, Circle has also strengthened its offer in a rapidly expanding and strategic segment with respect to the **Connect 4 Agile Growth** industrial path.*

*Through its subsidiary **eXyond** (92%), is active in offering advanced Gate Automation solutions for port and intermodal nodes, in advanced traffic monitoring and management services on the Italian road and motorway network (**Infomobility**), and in the provision of telematic services (**Truck**), based on proprietary technology platforms, to companies operating in the logistics, transport and insurance sectors.*

*Circle also owns 21% of the share capital of ACCUDIRE, an innovative startup from Verona that provides a **Collaborative Digital Platform** capable of helping players along the global supply chain in the exchange of information and the management of document flows, starting with the **e-CMR** (or electronic waybill) and e-DDT.*

*Finally, through **NEXT Customs**, active in customs optimisation digital services and functional to the continuation of initiatives aimed at the harmonisation of customs processes, Circle has entered a strongly strategic sphere for the evolution of the **Connect 4 Agile Growth** path.*

Circle S.p.A. has been listed on the Euronext Growth Milan market of Borsa Italiana since October 26, 2018 (alphanumeric code: CIRC; ISIN code ordinary shares: IT. 0005344996).
