

## **PRESS RELEASE**

### **Circle GROUP joins International Logistics Exhibition (SIL) in Barcelona with focus on dematerialisation, interoperability and digitalisation**

*Milan, June 18, 2025*

**[Circle S.p.A.](#)** (**"CIRCLE"** or the **"Company"**) - an Innovative SME **listed on the Euronext Growth Milan market**, heading the Group specialized in the process analysis and the development of solutions for the digitalization of the port and intermodal logistics sectors, as well as in the international consultancy on Green Deal and energy transition topics – confirms its participation at the **International Logistics Exhibition (SIL) in Barcelona**, scheduled from **18 to 20 June 2025**.

In the context of the **MedaLogistics - EMEA Logistics Leaders Summit conference**, at the **SIL Auditorium**, Circle Group will be represented by **Marika Gillardo**, Head of Marketing, today, **June 18, from 12:45 PM to 4:30 PM**, within the session dedicated to ***"The Future of Mediterranean Supply Chain: Digital & Green Transformation"***.

During her speech, Marika Gillardo will deepen Circle Group's contribution to the digital and sustainable transformation of the supply chain, illustrating the initiatives underway on the digitalisation of transport documents, starting from the implementation of e-CMR as a lever for document simplification and the tracking of goods flows on the road. Circle Group is already prepared for the future extended adoption of the **EFTI** (Electronic Freight Transport Information), whose semi-mandatory introduction is planned in Spain starting next year. Thanks to the integration of e-CMR with the EFTI Platform - interoperable but not yet unified - the Group positions itself among the European players **ready for the next phase of regulatory evolution**. Particular attention will be paid to the technological solutions developed by the Group, in particular by eXyond, which, thanks to the interoperability between Kmaster® and the Milos® TFP solution, guarantees and automates road and intermodal transport activities in a coordinated manner, simplifying operational management and optimising information flows, with improved operational performance of supply chain actors.

During the speech, the collaboration with **Telepass** for the integration of tolling services will

also be highlighted, which enables an intelligent and automated management of motorway tolls, contributing to an increasingly fluid and connected logistics. Circle Group also refers to the NOD Connector, a strategic element for interoperability between logistics nodes. Another key aspect of the intervention will be the importance of **integration with logistics nodes** - ports, interports and terminals - through interoperable solutions and IoT technologies. This approach enables real-time coordination of freight flows, fostering collaborative, efficient and data-driven logistics.

Finally, projects active in the context of the **International Fast & Secure Trade Lane** will be presented, focusing on the Mediterranean area. These initiatives aim at the creation of digital and secure corridors that improve infrastructure and trade integration between Europe, North Africa and the Middle East, strengthening the strategic role of the Mediterranean basin in global trade.

The MedaLogistics Summit is a major international platform for dialogue between logistics, transport and infrastructure experts from EMEA. The event will feature **50 high-profile speakers and over 350 institutional and industry representatives** to address key topics such as digital transformation, sustainability and supply chain resilience.

Circle Group's presence confirms the Company's strategic role in supporting the digital and green transition of Mediterranean logistics, in line with global challenges and the industry's need for competitiveness, efficiency and sustainability.

*"Our participation in MedaLogistics confirms Circle Group's commitment to promoting an increasingly integrated, connected and sustainable Mediterranean logistics ecosystem. In a constantly evolving international context, we believe that cooperation between technological innovation, infrastructure and policy is the key to competitive and shared growth, as per our **"Connect 4 Agile Growth"** business plan. Our objective is to promote digital, federated and integrated logistics, supporting the Spanish market in the development of an interconnected ecosystem between the Mediterranean and Central Europe. This is achieved through digital tools and services for digitisation, telematics, document dematerialisation and intelligent infrastructures,"* said Marika Gillardo.

\*\*\*

*Founded in Genoa in 2012, **Circle S.p.A.** is the Innovative SME at the head of the CIRCLE Group, the Group specialising in the analysis and development of products for the **innovation and***

**digitalisation of the port and intermodal logistics sectors and in international consultancy on Green Deal and energy transition issues.**

The Group includes the software houses **Info.era**, **NEXT Freight**, **Cargo Start**, **eXyond**, **Circle Garage**, the consulting companies **Magellan Circle** and **Magellan Circle Italy**, **NEXT Customs**, as well as the subsidiaries **ACCUDIRE**.

The main products are the different **Milos®** suites for various targets, the **Extended Port Community System**, the **MasterSPED®** and **Milos® Global Supply Chain Visibility** solutions for shipping, logistics, trade and industry, respectively, as well as **StarTracking®**, an airport-to-airport tracking solution. Completing the Supply Chain offering are '**Federative Services**', offered in cloud mode, which can make customers' migration to a digital business model more efficient.

In the Circle Group's sphere of innovation activities, **Milos® Intelligence** offers a series of advanced solutions that exploit AI technologies for optimisation, simulation and the Digital Twin to support the transformation of decision-making processes by promoting the digitalisation of systems.

Through **Magellan Circle** and **Magellan Circle Italy**, the Group operates in the field of advocacy at European institutions, working alongside public bodies and companies, identifying their positioning at European level (**Strategic Communication and Advocacy**) and funding opportunities (**Eu Funding Accelerator**), with a vertical focus on Green Deal and energy transition issues.

With the acquisition of **Cargo Start**, a company specialised in the development and sale of innovative technological products and services for air cargo, Circle has also strengthened its offer in a rapidly expanding and strategic segment with respect to the **Connect 4 Agile Growth** industrial plan.

Through its subsidiary **eXyond** (92%), is active in offering advanced Gate Automation solutions for port and intermodal nodes, in advanced traffic monitoring and management services on the Italian road and motorway network (**Infomobility**), and in the provision of telematic services (**Truck**), based on proprietary technology platforms, to companies operating in the logistics, transport and insurance sectors.

Circle also owns 21% of the share capital of **ACCUDIRE**, an innovative startup from Verona that provides a **Collaborative Digital Platform** capable of helping players along the global supply chain in the exchange of information and the management of document flows, starting with the **e-CMR** (or electronic waybill) and **e-DDT**.

Finally, through **NEXT Customs**, active in customs optimisation digital services and functional to the continuation of initiatives aimed at the harmonisation of customs processes, Circle has entered a strongly strategic sphere for the evolution of the **Connect 4 Agile Growth** path.

**Circle S.p.A. has been listed on the Euronext Growth Milan** market of Borsa Italiana since October 26, 2018 (alphanumeric code: CIRC; ISIN code ordinary shares: IT. 0005344996).
