

PRESS RELEASE

CIRCLE Group presents the Milos® 9.0 Win Win Service Ecosystem, the new digital suite for managing automated parking and compensation in compliance with the Infrastructure Decree

Launched today in Milan during the Container Italy event organised by Shipping Italy

Milan, November 21, 2025

CIRCLE Group (“CIRCLE” or the “Company”) - an Innovative SME listed on the **Euronext Growth Milan market**, heading the Group specialized in the process analysis and the development of solutions for the digitalization of the port and intermodal logistics sectors, as well as in the international consultancy on Green Deal and energy transition topics – announces at the *Container Italy* event—one of the leading national events dedicated to the container and logistics sector, bringing together operators, freight forwarders, terminal operators and carriers to discuss trends, innovation and the supply–demand dynamics of logistics services—today in Milan hosted the launch of the “**Milos® 9.0 Win Win Service Ecosystem**”, developed to ensure full compliance with the **Infrastructure Decree-Law (DL 73/2025)** and to support all supply chain stakeholders in the integrated and automated management of processes related to loading and unloading times and the associated Congestion Fee.

In this context, **Milos® 9.0 Win Win** was created as a concrete response, offering an interoperable environment capable of collecting, certifying and cross-checking data from the various stakeholders (Industries, Forwarders, Road Hauliers and Intermodal Logistics Nodes), **enabling transparent management of compensations and a significant reduction in disputes.**

The platform ensures automation of excess and compensation calculations, full integration with ERP, WMS, TMS, TOS, PCS and Gate Management System, and certified traceability in accordance with eIDAS logic and standards, thus ensuring legal certainty, complete digital evidence and an indisputable audit trail.

Thanks to **integration with the MILOS® platforms** —Milos® TAP – Transport Appointment Platform, Milos® TFP - Transport Federative Platform, KMater, and standard API connecting

all players — the Milos® 9.0 Win Win Ecosystem enables smooth, reliable and compliant management of operational timings, supporting each actor in fulfilling their responsibilities: from the Industry/Principal, which consolidates information, prevents inefficiencies and anticipates operational guidelines; to the Freight Forwarder, who coordinates flows; to the Road Haulier, who receives real-time updates and digitally records timings; all the way to the Intermodal Logistics Nodes (Ports, Airports, Inland Terminals & Terminals) responsible for providing actual access and handling data.

This new ecosystem has been designed as an advanced collaborative platform to optimize logistics and transportation processes. Its goal is to create an integrated system capable of forecasting and analyzing data to anticipate critical scenarios and potential bottlenecks, as well as correcting, suggesting and implementing necessary actions in real time, supporting the execution of operational decisions.

Moreover, it serves as a Collaborative Platform that virtually connects all supply chain actors (such as ports and carriers), enabling efficient, coordinated and shared synchromodal management of freight transport.

*“With **Milos® 9.0 Win Win**, we offer the industry a solution fully aligned with the new regulatory framework, one that ensures data certainty, operational efficiency and protection for all players,” said **Luca Abatello, CEO of Circle Group**. “We are particularly pleased to present it today at Container Italy, a key event for the sector, as it provides the ideal context to highlight the value of a truly ‘win-win’ model. Digitalization and interoperability become central levers for a more transparent, responsive and sustainable supply chain. This launch marks an important step in the implementation of the ‘Connect 4 Agile Growth’ industrial plan and confirms CIRCLE’s role as the reference technology partner for the transformation of land and intermodal logistics.”*

Founded in Genoa in 2012, Circle S.p.A. is the Innovative SME leading Circle Group, a company listed on Euronext Growth Milan since 2018 and specialized in the analysis and development of solutions for innovation and digitalization in the port and intermodal logistics sectors, as well as in international consultancy on Green Deal and energy transition topics.

The Group includes the software houses **Info.era, NEXT Freight, eXyond, Cargo Start**, the consulting firms **Magellan Circle and Magellan Circle Italy, NEXT Customs**, as well as the affiliated company **ACCUDIRE**.

*In the field of digital innovation, the **Milos® Intelligence** platform integrates advanced technologies such as AI, simulation, and Digital Twin to support decision-making processes and the digitalization of systems, through solutions like the **Extended Port Community System, MasterSPED®, Milos® TOS, Milos® MTO, Milos® TFP, Milos® Global Supply Chain Visibility, and StarTracking®**. Complementing the offering, **Federative Services (cloud-based)** enable a more efficient migration towards digital business models.*

*Through **Magellan Circle and Magellan Circle Italy**, the Group is active in Brussels and across Europe in **advocacy activities with the European Institutions**, supporting public bodies and companies with services in **Strategic Communication and Advocacy and EU Funding Accelerator**, with a focus on the Green Deal and energy transition.*

*With **Cargo Start**, specialized in technological solutions for air cargo, Circle has strengthened its offering in a strategic segment of the **Connect 4 Agile Growth** industrial plan. With **eXyond**, the Group operates in advanced **infomobility** services (InfoBluNewGen) and telematics solutions for the logistics, transport, and insurance sectors (Kmaster).*

*Circle also holds a 22% stake in the innovative startup **ACCUDIRE**, which offers a collaborative platform for document management along global supply chains, starting from **e-CMR** and **e-DDT** (electronic consignment note). With **NEXT Customs**, the Group develops digital services for customs optimization, contributing to the harmonization of processes in line with the strategic directions of **Connect 4 Agile Growth**.*

Circle S.p.A. has been listed on the Euronext Growth Milan market of Borsa Italiana since October 26, 2018 (alphanumeric code: CIRC; ISIN code ordinary shares: IT. 0005344996).
