

PRESS RELEASE

eXyond, a subsidiary of CIRCLE Group, secures a contract worth approximately €290 thousand with a leading Italian intermodal logistics operator

The project concerns Gate Automation (GOS) solutions, rail Fast Corridors, and digital interoperability systems supporting logistics flows.

Milan, 14 April 2026

CIRCLE Group (“CIRCLE” or the “Company”) - an Innovative SME listed on **Euronext Growth Milan**, heading the homonymous Group specialized in process analysis and the development of solutions for the innovation and digitalization of the port and intermodal logistics sectors, as well as in international consultancy on Green Deal and energy transition topics – announces that its subsidiary **eXyond S.r.l.** has secured a **new contract from a leading private Italian operator** active in maritime logistics, terminal operations and intermodal transport, for a total value of approximately **€ 290.000,00**.

The project involves the design and implementation of advanced solutions for the digitalisation and automation of rail and intermodal logistics flows, with a specific focus on the management of **rail Fast Corridors** and the deployment of **Gate Automation systems** based on the **eXyond GOS** (Gate Operating System) **platform**, as well as software modules and application connectors to ensure interoperability between terminal operating systems and relevant digital platforms.

In particular, the **Gate Automation solution** (eXyond GOS) constitutes a digital system for managing and controlling access flows at logistics hubs, enabling the automation of inbound and outbound rail operations, the verification of transport data and the traceability of activities. The project also includes the implementation of automated rail gate systems and integration with digital platforms and interoperability services (with TOS and ERP), supporting data exchange across the supply chain and the ongoing digitalisation of freight transport.

Project activities are expected to be progressively rolled out over a six-month period, in line with the digitalisation programs for logistics and intermodal flows.

This initiative forms part of the wider innovation and digital transformation pathway within the logistics sector, contributing to enhanced interoperability and efficiency of IT systems across logistics nodes, while further strengthening the Group’s positioning in the

development of technology solutions supporting the supply chain.

“This new contract award confirms the role of CIRCLE Group and eXyond in delivering advanced digital solutions for intermodal and rail logistics, in line with the objectives of the ‘Connect 4 Agile Growth’ industrial plan,” said Luca Abatello, Chief Executive Officer of CIRCLE Group. “We will continue to invest in platforms and services capable of enabling interoperability and improving the efficiency of logistics flows, thereby contributing to the digital transformation of the sector at both national and European level.”

This press release is available in the Investor Relations section of the website www.circlegroup.eu and www.1info.it.

Founded in Genoa in 2012, Circle S.p.A. is the Innovative SME leading Circle Group, a company listed on Euronext Growth Milan since 2018 and specialized in the analysis and development of solutions for innovation and digitalization in the port and intermodal logistics sectors, as well as in international consultancy on Green Deal and energy transition topics.

The Group includes the software houses Info.era, NEXT Freight, eXyond, Cargo Start, the consulting firms Magellan Circle and Magellan Circle Italy, NEXT Customs, as well as the affiliated company ACCUDIRE.

In the field of digital innovation, the Milos® Intelligence platform integrates advanced technologies such as AI, simulation, and Digital Twin to support decision-making processes and the digitalization of systems, through solutions like the Extended Port Community System, MasterSPED®, Milos® TOS, Milos® MTO, Milos® TFP, Milos® Global Supply Chain Visibility, and StarTracking®.

Complementing the offering, Federative Services (cloud-based) enable a more efficient migration towards digital business models.

Through Magellan Circle and Magellan Circle Italy, the Group is active in Brussels and across Europe in advocacy activities with the European Institutions, supporting public bodies and companies with services in Strategic Communication and Advocacy and EU Funding Accelerator, with a focus on the Green Deal and energy transition.

With Cargo Start, specialized in technological solutions for air cargo, Circle has strengthened its offering in a strategic segment of the Connect 4 Agile Growth industrial plan. With eXyond, the Group operates in advanced infomobility services (InfoBluNewGen) and telematics solutions for the logistics, transport, and insurance sectors (Kmaster).

Circle also holds a 22% stake in the innovative startup ACCUDIRE, which offers a collaborative platform for document management along global supply chains, starting from e-CMR and e-DDT (electronic consignment note). With NEXT Customs, the Group develops digital services for customs optimization, contributing to the harmonization of processes in line with the strategic directions of Connect 4 Agile Growth.

Circle S.p.A. has been listed on the Euronext Growth Milan market of Borsa Italiana since October 26, 2018 (alphanumeric code: CIRC; ISIN code ordinary shares: IT. 0005344996).
